

## Ali Saeed's Film Presentation Tour Begins in Europe

Ali Saeed, the main protagonist of the acclaimed film, *Memories of a Generation*, has started a presentation tour in Europe. After his visit to France he has gone to London and met with officials of the Foreign and Commonwealth Office, Amnesty International and explained the Ethiopian human rights situation to them. The film has gained much positive reaction from Ethiopians and foreigners alike and will be shown in hall in France, England and Italy in the near future it is reported. On August 22 and August 23, the film will be shown in Frankfurt; in Stockholm on August 26 and in Oslo August 29. Now that several quarters are trying to distort the history of that generation the film *Memories of a Generation* is an achievement protecting the history of the martyrs and those who suffered under the brutal regime and its monstrous Terror.
