

ETHIOPIAN WOMEN FOR PEACE AND DEMOCRACY

CALL FOR A WORLD WIDE NINTY DAY'S OF PRAYER TO USHER PEACE FOR THE ETHIOPIAN MILLENNIUM

The Ethiopian calendar begins the second Millennium on September 11, 2007

We, concerned Ethiopian women and mothers working for peace, justice and the development of democracy in Ethiopia, once again call on all Ethiopians, friends of Ethiopia and all concerned loving people of the world to join us in prayer

**Starting: June 11th
Ending on the Ethiopian New Years Eve at Midnight
September 11th**

Our intention is a call for peace through the power of prayer forming the energy of oneness and the unity of the Divine to heal our nation's suffering. The more people holding this intention the more powerful and effective the field to create change. Let us embark on this journey and make a difference,

**Pray for Forgiveness
Pray for Healing**

As we count down to the New Ethiopian Millennium, let us focus our conscious mind on the thought of Peace in Ethiopia, Africa, and all around the world. Let us relinquish animosity and pray for a world where all human beings can live in harmony and balance. Where, all creation is seen as sacred and interconnected, where all are equal and free from oppression.

- Let us usher the New Millennium by praying for the sprit of generosity based on forgiving each others trespasses, and bring a national healing in Ethiopia and the rest of the world.
- Let us pray that all "Prisoners of Conscience" and leaders of all political opposition parties and all who have taken a stand against tyranny be released from prison in Ethiopia.
- Let us pray that no mother, wife, child or sibling will be forced to stand at a prison gate to see loved ones behind bars for upholding the right of dissent against oppression
- Let us pray that a covenant of trust be established between Ethiopians and the leaders they select to be governed by for the benefit of all.
- Let us pray for a peaceful and economically thriving Ethiopia for our children's future and our nation. Let us give thanks knowing that it will be done...

"Peace values and nourishes life, it builds rather than destroys, it appreciates rather than denigrates. Peace is about the open heart and the expression of compassion empathy and love." Barbara L. Valcome
