**With all this large guerrilla army for the last 13 years in the name of TPDM, not a single village in Tigray is liberated by TPDM. One wonders why? Was the mission to defend the land of Isayas Afewerki Eritrea? The secret remains mystery so far. Such mysterious scenario needs an answer. (Editor Ethiopian**

**We condemned the accusation of UN Security Report announcement of the mercenary Eritrea Group known as Ginbot-7 as an Amhara founded party!**

By Getachew Reda (editor Ethiopian Semay) [getachre@aol.com](mailto:getachre@aol.com)

The United Nations Security Council S/2014/727 Distr.: General 13 October 2014 report in regard to Eritrea arming and training its mercenary groups such as Ginbot7, ONLF, TPDM, OLF misinforming its readers on its report that Ginbot 7 is lead and founded by Amhara elites. We condemned such false accusation by the UN Security Council and demand to correct its false information. [243121671-Leaked-SEMG-Report](#)

Here is what its report saying,

Quote:-

“Ginbot Sebat is a banned opposition group formed in 2009 by Amhara political elites committed to regime change in Ethiopia through armed struggle.[i]” What an accusation!!! Leave the Amhara alone folks!

We know that such report is intentionally misguided by the anti Amhara group TPLF/EPLF or Ginbot7 leaders themselves in order to give its crime to the Amhara as always Amhara is their primary target in any way or shape they want to link it to any negative activities in history.

We all know that Ginbot 7 was lead and founded by Gurage, Oromo and Wolayita. Each of these elements in the leadership are anti Amhara. The organization itself openly had many times exposed its hatred and distorted the analysis of the History of Amhara on its editorial page.

The distortion of the UN labeling Ginbot 7 as Amhara elite party is simply out of truth and no substantial fact can support such claim.

Berhanu (Gurage) head of the party Andargachew (Oromo), Abebe Bogale Oromo), Efrem Madebo (Wolayita)... each of these elements leading the organization as central nucleus of the party or even others who are at the corona surrounding the party are majority anti Amhara who are from other ethnic group as members. Of course there are some deluded ordinary party member elements from Tigray (perhaps one or two- I know one for sure- which I feel sorry for him for being fooled by these mercenaries) and few ill informed Amhara. But those are surrounded by emotions and tricked by the treacherous

propaganda of the architectures of organization and its media-such as, Tamange Mohammed, ETSAT and Z-Habesha.

Out of this fact, the UN can't support its claim that Ginbot7 is founded by Amhara elites.

### **The funny denial by the Eritrean Shaabiya gangs**

As you might have seen in the report, the security Council asked Shaabiya officials to confirm or deny that if Ginbot7 is supported trained and armed by Shaabia government of Isayas Afeworki, they denied existed such organization in Eritrea. They even denied its extension armed group called TPDM camouflaging as Tigrayan army guerrilla group who is serving Isyas Afewroki as its special armed gangs uniquely equipped, well fed better than the regular army of Isyas Afeworki denied such group ever exist or support by Eritrea.

What all this denial showed us is, these mentally defected Eritrean leaders are morally, politically and their international acceptance as "government" is completely bankrupt. They deny such group existed in Eritrea to the fact finding group/monitoring group is because, Isyas knowingly and intentionally is arming terrorists like Al Sahabba, OLF, ONLF, who want Ethiopia to be destroyed by claiming secession or slaughtering Christians to create a havoc inside Ethiopia and surrounding countries.

At the same time, he also armed and trained a group of mercenaries such as Ginbot 7 and TPDM, ArbeNn'och Ginbra and the like. Add these groups together, Isayas has calculated the outcome of his support and the benefit he will rip from it to fulfill his sleepless mission to destroy his parents country "Ethiopia". A person who denied his parents as an Ethiopian from Tigray in front of the world will not feel any guilty sense to deny anything of his crime against Ethiopian people.

### **TPDM the other armed group of Shaabia**

Who is TPDM and its political mission? Its political mission as said by its former TPLF foot soldier who is leading TPDM getting orders from EPLF officers controlled by Isayas Afeworki, saying, quote:- "to establish a popular democratic government of Ethiopia where the rights of **nation** and **nationality** are respected" . In other words, Shaabia is doing its homework as TPLF is doing its home work to the Eritrean opposition group based in Ethiopia (kunama, Afar....) to follow the Marxist TPLF doctrine **nation** and **nationality** up to secession.

The Eritrean opposition have hard time agreeing each other with such Marxist ideology demanded by few Eritrean ethnic elites to add such doctrine inside the alliance chapter (which is concenter as preliminary Eritrean constitution). Such doctrine was proposed by TPLF government in Ethiopia if any Eritrean group wants to get support from TPLF to remove Isayas from power. Odd as it may, similar proposal is demanded by Shaabiya- that big organization such TPDM, OLF, ONLF to add and

follow TPLF doctrine such as **nation** and **nationality** up to secession on their program. God knows if TPDM or any of those Marxist ideologues know the exact definition of what is **nation** and what **is nationality** or what is **people** meant the hidden psych behind secession.

Funny as it may, Shaabia officials denied they ever heard or support such group as TPDM supported or trained inside Eritrea by Eritrea. The Senior Political Adviser to the President of Eritrea, Mr. Yemane Gebreab told the Group that the Government of Eritrea does not support TPDM. Perhaps their denial meant that this group are Tigrayans , but Eritrean stooges. Indeed such group is of course Eritrean mercenary. We have been saying that all along. Two former Eritrean generals with active contacts inside the Eritrean military and two other senior Eritrean officials told the monitory group that

“Eritrea’s support to TPDM is more sustained and organized than its support for other Ethiopian armed groups. TPDM had become the most important Ethiopian opposition group inside Eritrea and it had a dual function as an Ethiopian armed opposition group and a protector of the Afewerki regime.[vii] Its fighters, who are from the same ethnic group as President Afwerki, are personally loyal to him, unlike the defense forces whose loyalties have been questioned by the President in recent years.[viii] This is seen to be particularly relevant after the failed attempted “Forto” army mutiny confronting the Eritrean regime on 21 January 2013” (see [S/2013/440](#)).

In addition to this, Eritrean opposition accused TPDM as highly involved in murdering Eritreans who wants to cross the border when tempting to flee Eritrea. It is also accused by Eritreans who crossed Eritrean border to Ethiopia charging Eritreans by thousands of Nakfa/Bir as they are the trusted assigned armed group at the border between Ethiopia and Eritrea under the order of the Isays special army commanders (remember that is why TPLF launched the across border attack marched deep to the Eritrean territory and Shaabia army stations near the Ethiopian borders where TPDM was said supervising the borders after some tourists kidnapped and also after some Tigrayan gold mining diggers who were most of them daily laborers and peasants kidnapped by Eritreans and its accused collaborator TPDM). TPDM is well staffed including Tigringa and Amharic TV station of its own program edited by Shaabiaya media chiefs hoisting Ethiopian flag with the Axum Obelisk image in the middle of the flag.

I heard Mola Asgedom the leader of TPDM accusing TPLF for staining the Ethiopiabn flag without consulting the Ethiopian people by putting a blue strips in the middle during his interview with the Tigringa VOA program. I ask Mola Asgedom who allowed you and your TPDM to stain our flag with the image of Axum obelisk? Why is that Tigrayan ethnic organizations do always like to in-gage with the business of messing up the national flag? I don't get it!

**Why not in Tigray why in Amhara?**

Oh! What an endless news regarding Amhara and its areas! Read this:- “A member of an NGO in contact with TPDM leaders told the Monitoring Group that he was informed of clashes in Benishangul, near the Amhara region of Ethiopia, in November of 2013.[iv]. But, no news of battle in Tigray reported in the UN security report. I ask why such huge army in number and heavily armed with sniper rifles, Walther PP semi-automatic pistols, Doshkas, Tokarev T pistols, and similar other modern rifles shy to operate or seized or liberate any small village or district in Tigray since its establishment ( 13 years) than to cross far miles and open battle in area where no significant Tigrayns live in it? The Amhara in Benshangul is 21% second to the main ethnic Berta which 25 %. Now what is that mission made the TPDM guerrilla armed group marched to a far territory from the land it claimed to liberate and defend (Tigray)?

Could it be Isayas’s mission and plan? We can suspect anything about Isyas looking at his past record he did near those locations in Asosa and other places targeting Amhara school children during the Derg era. Remember that? Of course, you should remember it. Isyas sent his loyal guerrilla commander “Yohannes” (wedi Yohannes?) organizing the operation with OLF. Who also cant suspect if such was similar mission using TPDM as Ethiopian group organized by Isayas Army Commanders to carry his dirty work against Amhara population who are the second highest population in the Benshangul. I have no doubt the elements who lead the trip to such remote area from

Eritrea might be organized by OLF who have significant number of oromo population in Gumuz.

I said this, because TPDM are Tigrayans and have no clue about this far remote territory to have knowledge in their expedition. The question is why going that far? There must be a hidden mission by Isayas, since TPDM is commanded and supervised by Isayas himself.

### **The Ogaden Mujihadeen Group**

This group are known to us as ONLF. This group is also mentioned in the UN security report indicating unlimited support and training by Eritreans to destroy Ethiopian sovereignty. As you knew this elements are completely armed in the Islamic ideology which felt to live discomfort with the “infidels” (the Christians) in Ethiopia, which they called Ethiopia as Abyssinya or Colonialists, Empire. They have similar ideology as to the OLF who claimed to bring back the old glory of the 15<sup>th</sup> century Galla pastoralist warriors who pocked, slaughtered human beings with sharpen metals, burned churches and residential tukul/grass houses, raped and snatched married women and children from their husbands and parents, amputating women breasts and men genitalia, destroying all the settled communities and their institutions, subjugating to their culture, made them spoke their language, named their lands/villages/mountains/rivers to Oromo language and hold many of the settled society as their Gebaro/slave

by annexing the large portion of the South, East, North and central territory of the ancient Ethiopian. By doing so, and as the result, such large portion of the population in Ethiopia is now Oromo speaking population. That is exactly why the Islamic Oromo Liberation Front/ IOLF/OLF and their affiliates are now mutilating and slitting children's throat like a goat In order to go back to the Glory of the 15th Century barbaric havoc and horrific terror.

Similarly, the Ogaden Liberation Front is completely supported by nihilists and lead by leaders claimed the Ogaden people as Arab Muslim descendants who established Ogaden. Read

Here is what their leader Commander Omar Usman who was senior navy commander in the Siad Bare's government in Somalia.

For the record, here is what he said:-

“Tribalism is not among the principles of the ONLF” \*  
“The Ogaden people are an Arab Muslim people” Admiral

Mohamed Omar Osman, leader of the Ogaden National Liberation Front (ONLF), (Source Somal Swiss Community/Somalida Switzerland “ONLF leader claims Ogaden are “Arab people” under Ethiopian occupation..( <http://Somaliswisstv.com> interview with Asharq Al-swak- source Los Angeles Times).

Let me give one more evidence that Ethiopia is presented as colonialist and occupier and what the Ogaden leader answers to the following question from the interview.

Asharq Al-Awsat-

What are the political and military conditions in the Ogaden Region?

Osman

First of all, the region is in a state of war to liberate it from the Ethiopian occupation. Our struggle has achieved important successes, and our friends are increasing every day. The entire above interview can be obtained

<http://somaliswisstv.com/2009/10/17/onlf-leader-claims-ogaden-are-arab-people-under-ethiopian-occupation/>

Indeed, his beloved Arabs (his ancestors based on his claim) and Isayas Afewerki as his friend are all giving their financial and armed support **anything** required to destroy Ethiopia by sending their foot soldiers such ONLF, OLF, ArbeNnoch Gimbar (whom some of its members are from Armacheho and Welkayet who are indoctrinated by the Shaabiya cadres openly and notoriously airing their **hatred** towards all Tigrayans using Pal Talk rooms. (see my interview Moresh Pal Talk as a sample); and its **fresh** mercenaries TPDM and Ginbot 7 to destabilize Ethiopia's sovereignty who are in the business of preaching "Eritrea as the Israelite strong **David**" and "Ethiopia as the weakest **Goliath**" whom the **giant** Goliath defeated by **small** David using shepherd's **sling**.

These are your Ginbot 7 amateur Eritrean mercenaries sitting in the helm of Ginbot7 who do openly degraded Ethiopia's pride falsely in front of the world at the Eritrean Festivals using the opportunity to show their hate to the Ethiopian people and its history recorded and filed on International You Tube audio video file. These strange elements are not limited there, **their spokes person** (the Wolayta ethnic Ephrem Madebo) also went some hundred twenty years back accused **Emperor Menlik** as an arrogant, **with a false sense of supremacy (TimikihitengNa/balege)** and **divisive/Anakash/Kefafay/** conqueror equal/same to **Meles Zenawi**. Evidence-listen for more detail explanation about Ephrem Madebo on my interview with Moresh Pal talk **posted on Ethiopatriots.com**. or read

"Negotiation, nation building, and the naysayers **By Ephrem Madebo** August 12th, 2011" posted on Abugida website

**This might freeze you for a moment written by Ephrem Madebo of Ginbot 7 spokes person. On his own word:-  
Quote:-**

*"I wonder what in the "Hell" Asmara has to do with the likely outcome of political events in Ethiopia. Isn't Asmara the home of Esayas Afewerke, a man who never sleeps before he makes sure that Ethiopia is reduced to multiple mini states? Had there been an inch thick of a heart that worries for Ethiopia under the chest of Essays, Asmara wouldn't have opened its door for separatist elements that fight to dismantle Ethiopia..

**"Isn't Asmara the home of Esayas Afewerke, a man who never sleeps before he makes sure that Ethiopia is reduced to multiple mini states?"**

**("Never kill them before they grow"**

By Ephrem Madebo | June 21, 2008

Pastor Ephrem has more to say about Eritrea:

*“If there is anything that the opposition gets from Asmara today, it will definitely be paid back at an exorbitantly high price tomorrow. The question of Assab, Bademe, Tsorena, and other border areas that I can’t even name are issues that face the current opposition in the future when it assumes power. **If we believe that Esayas is willing to raise a lion that may ultimately devour him, we’re not just lying through our teeth**, but we are also simplifying very complex national issues.” Ephrem Madebo – Ginbot7 Public Relation Straight Talk about Eritrea’s Government (“**Never kill them before they grow**” By Ephrem Madebo | June 21, 2008*

Are you shocked as I am when now Ephrem is defending Eritrea? after he said **“Isn’t Asmara the home of Esayas Afewerke, a man who never sleeps before he makes sure that Ethiopia is reduced to multiple mini states?”** Now, Ginbot 7 wants us to believe them all in a sudden Isayas has changed his mind to be the Angel of Ethiopia for the sake of Berhanu Nega and Ephrem Madebo lead organization called Ginbot 7? How can you believe these political prostitutes in the middle of our struggle?

Coming back to the ONLF issue- In the UN recent report, it revealed 13 ONLF executive members and their leader had a meeting in Eritrea, some from US, Australia. This is

what is cooking for Ethiopia. The opposition need to stay away from those claimed fighting for Ethiopia freedom under the umbrella of the Mafiosi group called “Shaabiya”.

We nationalist Ethiopians therefore, condemned the United Nations Security Council S/2014/727 Distr.: General 13 October 2014 report, claimed on its report falsely labeled “Amhara” as the founders of Ginbot7 knowing the founders are loyal friend of the Anti Amhara Isayas Afewerki who are anti Amhara themselves who wrote obnoxious anti Amhara book. Thanks fro reading my commentary. Getachew Reda (Editor Ethiopian Semay) getachre@aol.com
