Selam Assimba,

I looked at the list of our beloved martyrs and was surprised not to find Kibrework Workalemahu in it.

She was a party member. Kibrework is known by those in the leadership. She was the secretary of the Amharic Department in HSI University in Addis Abeba. She was taken from her office at the beginning of the Red Terror and was never seen again. She has only one brother and he has been looking for her whereabouts since the late 70's. Her father and mother died crying for her. I lived with her and her brother with Siefu Tena and Iyob Tena (both brothers massacred by Derg in the Red Terror) near Yared Music School in Addis Ababa.

Kibre was born in Debre Ziet and had one younger brother. She dedicated her life to the struggle of the Ethiopian People and paid for it in her life. Those who knew her will always remember her. I am sending you her picture. For further information or pictures of Siefu and Iyob if you need them let me know.
